PRICE GUIDE

ALASKA
PREMIER HEALTH

NO COST CONSULTATION

Your consultation is free of charge and can be done over the phone or in person. If you want to start one of our programs, the next step is booking your new patient appointment.

NEW PATIENT DIAGNOSTIC TESTING

Let's get started! Your new patient appointment begins with 45 minutes of diagnostic testing. We're happy to offer our self-pay patients our ***No Limits Promo**, which covers the full cost of your annual lab panel. Your initial EKG and medical grade body composition will cost a flat fee of **\$165**, including all additional provider-ordered body compositions for the next twelve months.

NEW PATIENT PROVIDER APPOINTMENT

After finishing your diagnostic tests, you'll head into your provider appointment. You can expect to spend between 45 and 60 minutes with your provider at your new patient appointment, and the cost will be between **\$258-\$341** depending on the length and complexity (charges are billed based on time according to national coding standards).

CONTINUED CARE

You and your provider will meet for follow-up appointments once a week for the first 4 weeks after starting your program. Once you've completed 4 weekly appointments, you'll transition to an appointment every other week. These follow-up appointments range from **\$113-\$167**, depending on the complexity of the visit. If a follow-up appointment exceeds 45 minutes, the price increases to **\$259**.

NO LIMITS PROMOTION DETAILS

With our no-limits promotion, patients must complete 4 follow-up appointments within 3 months to prevent getting billed. If appointments aren't completed in the set timeline, you'll be charged \$297 for lab work. Refusal to pay will result in your bill being sent to collections.
